Volume 4 "Plan To Attend the Grand AIPA  
Number 6 Convention In Speedway, Indiana"

June 6, 1957  
Page 1

AIPA Bulletin--Published first week of each month, 12 issues per year.  
Membership--\$2.00 per year (entitles one to monthly bulletins, report  
form, membership card & miscellaneous items). Payable to ~~SECRETARY~~.

### Editorial...

A rather prolific DX month, right? And here's hoping an even more prolific DX month coming up. Now, where would be an ideal place to discuss with your fellow DXers these DX doings?...Speedway, Indiana of course, the site of this year's AIPA convention! The dates... Saturday & Sunday, July 6th & 7th, 1957, a 2 day affair. Larry Vehorn of 1120 Allison Avenue in Speedway has so kindly offered his location as this year's site, for which we are all very grateful. It will be held in a 3 car garage. There will be movies (concerning TV & DX..Hi!!), a planned dinner on one of the days; displays; representation of a few TV stations in Indiana by their Chief Engineers or other personnel and we hope that possibly Mr. John Winegard of Winegard Antenna Co. can be on hand as a guest. There will be a \$1.00 fee payable ~~1/2~~ at convention to cover the cost of dinner. With Speedway located as it is and during the prime of the DX season, there is no reason why we should not have a large attendance. Many of the New Yorkers will be there and quite a few others have already planned to attend, so let's see you there. Bring your photos, veries as you wish. If you plan to attend please let Larry or your president know in advance.

The response to the equipment compilation tabulation has been quite terrific. Tabulation in this month's bulletin. If you sent in your sheet on equipment compilation and your name is not listed, please be patient. It will be listed next month due to lack of space this month. Thanks for the fine response.

George Palmer of Williamstown, Australia reports skip on Sydney TV at 420 miles on channel 12 (short skip). He has his eyes open for Manila, Honolulu and of course London, England. He has recorded 10 different American call services stations all on 43mcs. Such as, KMB305 San Francisco, KID367 at Miami, Fla., KGA804 at Baltimore, Kansas City Police, Washington Paging service, etc. George would like a list of those Call services if anyone could help, so as to help determine where the m.u.f. is.

A note from Wayne Green, W2NSD, CQ Radio Amateur Journal tells of the desperate need to save the eleven meter band as the FCC has proposed to turn over some to the Citizens Radio Service. Since this is 270kc of excellent frequencies for the amateur operations, thus all amateur who have an interest in this band are urged to write to the FCC, Washington, D.C. (Amateur Division) immediately. So fire up that eleven meter band and save it!

Let me remind all AIPAers of the upcoming firing of the Aerobee rocket sometime in July. Its effects should be watched closely by DXers. Also, there is an informative article on "Operation Smokepuff" (aerobee rocket) in the June issue of Radio-TV News, page 126-127. All who do not have a copy should obtain same as it is worthwhile to look in to.

Deadlines for July bulletin: Longview, Wash; Gallipolis, Buffalo (FCC News), & Loma Linda, Calif. (for I-DX Column news) - June 25; Austin & Shelbyville, June 27; Dunkirk, July 1st. Due to convention late reports will be held.

The problem of low band locals is perhaps the most exacting faced by the TV-DXer inasmuch as it limits both the quality and quantity of his DX. We intend to prove here that all is not lost on this matter, and that something can be done about it.

First off the term "local" in application here will refer to a station that can't be taken out by ground wave or any other form of wave propagation on any given day. However all these steps will indeed be very helpful to grade B area locals.

We now begin by inspecting our outdoor antenna installation, keeping in mind the most important fact that a high rig is taboo for logging skip over locals. An antenna about thirty feet high would be most satisfactory in normal areas, and even lower in "hot spots". The most directional low band antenna is the Taco-1840B "Silver Star". You may think your antenna is better, such as the Winegard "Colorceptor", etc., but I must point out here, that units of this nature aren't very good unless you are located in the curves beyond the grade B area. It must be mentioned at this point that we intend to embrace methods to increase the directional quality of any antenna as we go along. Back on the subject again, the first step is to make sure that your antenna is installed properly. Lead-in of the foam type (core) is about the best for 300 ohm inputs. Standoff insulators of  $7\frac{1}{2}$ " length should be employed throughout. A low loss arrester such as the Amphonol 114-328 will afford protection without high RF loss. Your antenna mast must be well grounded with a number #6 or #8 wire of copper or aluminum. This wire should be attached to a no less than 8' treated ground rod (driven) with ground clamp being of good quality copper or bronze construction. A waterpipe ground would be second choice. Magnetic induction, grounding etc., of lead in not only causes loss but hurts your chance of taking out your local even more. The offender here is usually the loop of lead-in around the rotor which enables same to turn without pulling it off. The foam line is stiff in body and when circle looped (vertical) will go the entire 360° without pulling or sag. With the best of care it may appear THAT nothing will keep the lead-in from touching the guy wires at one point or another in rotation. A simple cure for this is to find an old garden hose that is not cracked or dry, cut it into pieces of about 24" long, and split these pieces length wise with a sharp knife. Just slip these hose lengths on the offending guy wires, tape to prevent slippage and your problem is solved. Now check to make sure your lead-in is away from all metal objects, and then you should be all set. Maybe a waterproof job on the lead in, if your critical plus.

Now the question may arise on the fact that we have established height, remember, a high gain antenna a few feet off the ground will not be satisfactory unless you're on high ground etc, but that we have overlooked the actual placement (location) of the antenna. The only thing we can say on this is, you must find a spot where your locals read the lowest, and yet everything else is normal. The form of perfection usually can't be obtained with a large bulky array, as you may find yourself holding same while hanging on the gutter pipe upside down in order to enjoy it. Special portable antennas are needed here, the construction of which will be outlined later. This has been part one and has not even begun to touch on the core of the problem. Such things as carriers, sync pulses, phasing, interaction, reflections, refractions, induction are all involved. I have, and still am, on this problem for over two years now, and hope very much I can help some of you out.

"FCC NEWS"

June 6, 1957.

Compiled by Art Collins

To start with, the scare story in regards to the Military wanting the VHF channels 2 to 6 is just about all over. They have no demands for it & by all indications don't want it. (By the way, the above pattern is the type KEDY ch 4 used on their test for us.)

Another test is in order from CJIC-TV ch 2 Sault Ste. Marie, Ontario, on Sunday, June 16th, from 2:00 to 4:00 AM EDST. (per D.N. Irwin, Ch. Eng.) Lets try for this one too. It will consist of Id test pattern and music.....

## FCC GRANTS.

|                                      |                                     |
|--------------------------------------|-------------------------------------|
| Ch 2 San Francisco, Cal.             | Ch 3 Lafayette, La.. 94Kw &.47 Aur. |
| Ch 7 Corvallis, Ore. 28.8Kw.-2.5     | Ch 5 Weston, W. VA.                 |
| Ch 9 Sheridan, Wyo. 3.08Kw-1.54.     | Ch 11 Hauma, La. 316Kw-165 Kw.      |

## "MIS'L NEWS"

KGEO-TV ch 5 in Oklahoma City on their new 1386 foot Tower and using full power, 100 Kw Vis. (ABC-TV)

KPTV(TV) ch 12 Portland, Ore. (NBC-TV) were on ch 27. This takes KLOR(TV) out of the picture. KPTV came on air 5/8/57.

WLBK-TV ch 15 Lebanon, Pa. dark since 1954 went back on air 5/9/57.

UHF ch 29 Buffalo, N.Y. trying for a June start???????

KCCC-TV ch 40 Sacramento, Cal. asked FCC for authority to go dark(off) May 31st. for a 90 day period.

WHTN-TV ch 13 Huntington, W. Va. has erected a new 84 foot 12 Bay Ant. on 1000 foot tower. 316 Kw Vis. At this writing is supposed to be on...

WCBS-TV ch 8 Charleston, W. Va. now on their new 1000 foot tower with full 1.58(authorized) power. KW vis.

You will notice that the new Grants and Applications are and will be less and less, the crowded channels are getting to the point where this is necessary to cut it down etc.

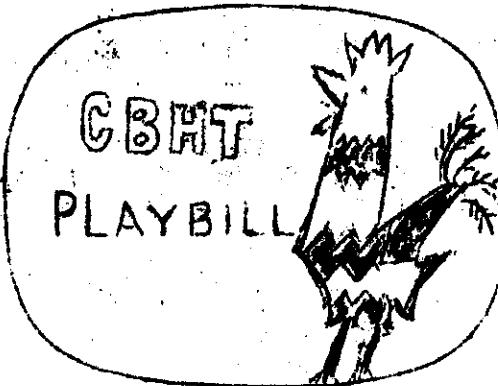

The AIPA 1957 Convention is coming up July 6th and 7th in Speedway, Ind and again I should like to urge all who can to attend. We would like to see a nice attendance.

In closing, may I extend my thanks to you Boys(and Girl) for the votes that keep me in the Vice-Pres position.

Art Collins.

KTVI ch 2 St.Louis, Mo. sign off 12:15 AM CST. sign on 9:00 AM CST.

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

Thanks to all who tried for the DX test from KEDY ch 4 and hope you all sent Thank you cards. The Test did not get out to well as I'm told.

We have another test coming up June 16th. 2:00 to 4:00 AM EBST. from CQIC-TV ch 2 in Sault Ste.Marie, Canada. Per D.N.Irwin, Ch.Eng. Try for them! The test will consist of Identified test pattern and music.

I have word from Berten Holmberg Ch.Eng of KTCA-TV ch 2 the new Minn. & Saint Paul Minn. Station will be on in the early fall and will let us know of any early AM tests etc. They plan on Oct 1st for actual programing.

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

Word came today 20th. that starting in July Walter Spaulding Rt#3 Box 142 in Cardington, Ohio will handle the "RANK" Column. Mail your material to him I am sure Walter will do a good job. I believe Frank will assist.

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

To those who have ordered TV lists -- They are late in getting here in Buffalo. as soon as they arrive you will be mailed same. The TV Lists are published# only quarterly now and this will mean longer waiting periods.

I am still getting requests for Letter-Head, Stationery and Envelopes prices, the price is \$1.25 per hundred (both) no order less than 200 plus postage. Can be printed in any color. Am now using a new 10 point Park Avenue type which is much better in appearance, just for the heading.

In closing may I thank each and every one who voted me in again as Vice-Pres. Sure will do all I can to make the Bulletin worth your while

Many thanks,

Art Collins.

" Frank Hill's RANK Column "

June 6, 1957

First I would like to thank all who voted for me in the recent election. I will sure give my utmost to uphold to the best of my ability the high standards to which our club has risen. I feel that we will have another great year as we have had in the past. Bob Cooper's R\*E articles are sure a boost to the AIPA.

I wish to thank all my friends who stuck by me so faithfully during my recent difficulties. Would like to hear from all of them again and be assured I will answer sooner than I have been able to before. All though I cannot meet and thank you all individually I would like to thanks for the support you have all given me, and I only hope you will continue to support this your Column. Please support all the Editors as your facts and figures are what makes our Bulletin better, and our club so strong. Lets reach 500 Members this year, and lets not have any drop outs or non-renewals.

Thanks to Jim Dillon.

It has been called to my attention that our club print a small pamphlet for new members briefly explaining all our different terms and their meanings. This could be done with out an added expense. If it could be done with out an added expense it would be fine. But How, Frank? In fact I did add a sheet some time ago with many terms we use.....(Art)

Thanks for the added support and I shall endeavor to have a more interesting Column next month. Until then 73's & Best DX to all

Frank Hill, Box 147  
Gallipolis, Ohio.

Frank has a P.S. On Wed. May 23rd. 16½ Hrs of steady SKIP hit here with Canada, Cuba, and many States showing.

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

It has come our attention here in Buffalo that a AIPA Convention is to be held this year in Speedway, Ind. July 6th-7th... This is really good news and I only hope that we can have a GOOD turn out. Lets all who can possibly make it, PLEASE DO. We are greatful to Larry Vehorn for this.

This gives you a chance to meet your DX pals, talk over catches, DX equipment, Tips, and all the interesting things you don't do otherwise. So lets try to get there. Art.

Here I am, and there you are, but this column will not succeed without your help. So let me know what you want to see in this column, and I'll try to comply.

Here are some possible topics: All TV DX reports of an international nature, All TV-DX reports of those DXers outside the US, A list of TV stations outside the US, A list of the frequencies and standards of stations not on US channels or using US standards, Technical notes on how to receive such non-standard TV, Notes on propagation affecting such reception, Etc.

You may have other ideas, but as I said, I need to know your interests, as this column is of most value when it serves the AIPA members. And let me know any IDX information that you have (or can get), and don't forget to send in these reports of all IDX.

Hal Glick of Yellowknife, NWT, reports DX on ch 2 thru 6 on April 16 in the evening with CFRN-3 and CBWT-4 ided. Again on the 20th in the very early hours, CHCT-2 and CFRN-3 along with many unided flashes on ch 2. On the Afternoon of the 26th, more unideds on ch 2. He noted almost continuous flashes on the evening of the 29th, but all too weak to sync in.

Doris Johnson of Longview, Washington, reports fading signals from the south-east on ch 2, from 1602 to 1612 on May 2 with foreign sound, but no picture that could be synced in. This may have been an F<sub>2</sub> opening to South America, or who knows what? And on May 8 at 1101 to 1102, while receiving KNXT very strong, the sound of KNXT faded and she heard foreign sound. During this time there was a very fine line interference pattern predominating the picture. Might this have been double hop Es to Mexico City, F2 to farther south, or what? Reports of any other foreign reception on these days would be appreciated. Her times in PST.

For those of you who plan to get or already have some sort of converter for tuning the European TV frequencies, here is a note that may be of value. There are two frequencies in this band that have transmissions 24 hours a day from many US cities and some possessions. These are stations for the use of one-way radio paging to portable receivers. Their frequencies are 35.58 and 43.58 Mc. They are both good checks on propagation (Es also). At this location the Honolulu, Hawaii "Radio Paging Service KUA 217" on 35.58 Mc is heard very frequently and the "Ft. Lauderdale (Florida) Paging" is heard almost as often. Locally there is "Air Page Long Beach" on 35.58 Mc and "Mobilphone Los Angeles" on 43.58 Mc. So far no station has been strong enough on 43.58 Mc for ID here, but while I was DXing in Maryland, I heard this LA station almost every day that I saw the BBC on their channel 1. There are over 150 of these stations on the air. If there is sufficient interest, I'll try to get a complete list of all such stations. But again, I need to know what you would like to see in this column.

That's it for this, my first column. PLEASE help me improve this column by sending me your suggestion, reports, and information concerning IDX. Best IDX and 75's. G E Simkin (mail: CME, Loma Linda, Calif.)

AIPA

Eastern DX Column

June 6, 1957

Page 7

Compiled by: Bob Seybold, Dunkirk, N.Y.

A flurry of E skip hit most sections of United States, including the east during the May 16-23 period, and results were quite terrific. One of the better E skip openings ever witnessed. Otherwise, trops was about normal for this time of period, with UHF picking up a little. Now to reports:

B. J. Bingham, Festus, Missouri - May 21, Es, KOOK2 CBFT2 KID3; May 22, WRCV3 WFIL6 WCBS2 WHIS6 (new) WMAR2; May 23, Es, WRC4 (new) WBZ4 CKCK2; May 24, trops, 400 miles, WFWV9 (new) KMBC9 WHAS11 WKN10 etc; May 25, trops, 400 miles, WKRC12 WBNS10 WMCT5 etc. His log now at 130 stations.

B. H. ## Western DX Column

by Doris Johnson, Longview, Wn.

This being my first attempt at anything like this, I will try to do my best, and hope to improve with time. Lots of good DX this month, so next months loggings should really be good!

Ed Hepp of Portland, Ore., comes up with a nice report this month. April 24, CKCK-2, KDIX-2, Apr. 25, KTVK-3, Apr. 26, KDIX-2, KDLQ-3, and a new one WCCO-4 (verif.). Apr. 27, KTV-2 (new). May 1, KTVK-3, KLRJ-2 May 3, KNXT-2, KEYT-3, KNXT-2, KRC-4, KDIX-2. May 4, KOOK-2, KUTV-2, May 15, produced many unids on channel 2-3 & 4. May 17, KNXT-2, KGNC-4, KEYT-3, unident. on 4. May 18, KUTV-3, KDLQ-3, KXJB-4, KDIX-2 KOOK-2, KFYR-5. May 19, KDLQ-3. May 21, unident. on 3, May 22, unident. on 2 and 3. Congrad. on your WCCO-4 ED. Very nice report.

Gene Webb of Seattle, Wn., has a nice report. May 1, KUTV-2 (new and verif.) May 3-8 and 18 unids on channel 2. This all off of rabbit ears antenna. Gene put up a new Wingard Super Interceptor, and on MAY 22 he got KLRJ-2 (new.) Gene now has 10 logged in 7 states. Best of DX with your new antenna.

Rey O'Rear of Zillah, Wash., comes up with a good report also. Two new stations this month, bringing his total logged to 58. Apr. 24, KFEQ-2, KMTV-3, KNXX-2 May 3, KNXT-2, KRCA-4, KEYT-3. May 15, KMID-2 May 17, KGNC-4, KMID-2, KPTV-12, KNXT-2, KRCA-4. May 18, KFEQ-2, WDAF-4, KDAL-3 (new) KDIX-2 (new), KXJB-4, May 19, KARD-3. Nice Going!

Edwin Shorey of Derby Kansas, comes up with what he says is the best day for E skip ever seen as to amount of time E skip came in. His log book covers 1954-55-56. Total time E skip was on the 22 of May, was 13 hours. His logging reads like this: May 2, KGBT-4, May 16, WMAR-2, WRC-4, May 17, WGR-2, WUSN-2, May 18, WMAR-2, KDKA-2, May 19, KNAC-5, May 21, KRNT-8 (trops-new) KDKA-2, WGR-2, WRGB-6, WDSM-6 (new) WABD-5, WFIL-6, KTTS-10 (KNXX-2 trops). May 22, WUSN-2, WMED-6 WRAL-5 (new) WCJB-5 (new) WUNC-4, WGR-2, WOAY-4, WTVR-6, WRC-4, CBFT-2 (new) WTTG-5, WMAR-2. Best received was CBFT-2 at 1830 miles. This brings Ed's log up to 156 with 5 new this time.

Your editor here agrees with Ed Shorey, May 22 was the best day for E skip I've ever seen. My loggings read like this: Apr. 23, KOOK-2, KDIX-2, KCKT-2. May 22 Apr. 24, CKCK-2, KDIX-2, Apr. 26, KTVR-2, KTWO-2 (new) KDIX-2, KDLQ-3, KOTA-3 (new). Apr. 28, KNXT-2, Apr. 29, KTWO-2 May 1, KTWO-2, KUTV-2, KTVK-3, KLRJ-2, May 2, KNXT-2, KTWO-2, May 3, KNXT-2, KTVK-3, KRCA-4, KEYT-3, May 4, KUTV-2, May 8, KLRJ-2, KNXT-2 KTVK-3, KRCA-4, May 11, KUTV-2, May 15, KNXT-2, May 17, KGNC-4 (new) May 18, KDIX-2, KDLQ-3, KXJB-4 (new), KFYR-5 (new) CKCK-2, May 19, KUTV-2, May 22, KTVK-3, KVOA-4 (new) KPHO-5 (new) KCKT-2, KTVT-4, KCSJ-5 (new), KFBC-5 (new), KUTV-2, KTVR-2, KOTA-3, KDIX-2, KOOK-2, May 25, KDIX-2, KARD-3, KCKT-2, KVOA-4 (new) KMTV-3, KFBC-5, KTIV-4. This brings my log up to 57 with 10 new ones this time. Also, on May 2 a possible F2 from S.A. and on May 8th a possible E E Skip from XEW-2 in Mexico, and again on May 22, I got good video and audio of 2 men who looked Mexican, speaking Spanish, (which I can not understand a word of, darn it), so this probably was XEW-2. ALL in all May has certainly been a good month DX wise.

So sorry I did not get more reports to put in this months column, but this is all that came by the 26th, deadline date, so if you sent yours, and it is not in here, than please try to mail it a little bit sooner next month.

Thanks to you who recommended me for this job, it is very much appreciated. Just hope you can read this, what with my bad typing and all. Well, best DX in the coming month, to you all.

Doris Johnson.

Western DX

By Doris Johnson, Longview, Wash.

Late arrivals:

Norris Doyle of Pittsburg, California, logged 2 new ones this time, bringing his total to 31. Thanks a lot for the nice letter, Norris. May 8, KCKT-2, CHCT-2, May 12, KRLD-4, KMID-2, May 16, KV00-2, WKY-4, KCKT-2, May 17, KCKT-2, May 18, KARD-3 (new), KV00-2, KGNC-4, KMID-2, KROD-4, CHCT-2, WDAF-4 (new), May 21, KV00-2, CKCK-2. Very nice!

Eddie Albright of Medford, Oregon, logged 1 new station bringing his total logged to 51. One nice catch is KMAU-3. He says it is not a positive ID as he did not catch a station break, but from antenna heading and the little programming view, his guess is KMAU-3. Have you written for a Verie, Eddie? Hope it was KMAU-3. ~~WXX~~ Apr. 28, KOIN-6, trop, May 3 KPTV-12 and KGW-8 trop. May 4, unidend chs 2 by E skip, May 11, KOIN-6 and KPTV-12 trop, May 15, unident. from Texas on channel 4. May 16, KMAU-3, May 17, unident on ch. 2 and 4 by E skip. May 17, KCKT-2 and unident. on ch. 3. May 18, CKCK-2, KOB-4. May 20, KMAU-3, May 22, unident. on ch. 2 and KDX-2 (new). Nice loggings!

Doris Johnson

\*\*\*\*\*

On Sunday morning June 2nd E-Skip hit here in Buffalo & Kenmore with fairly good ground wave showing first, WBTW9, snow free, 9:30 AM EDST. WTVN 6 good(pic) WBNS 10 same. Skip started at 10:45 AM with TP of WLBT3, WREG3 11:00 AM. WMCT 5 at 11:15 AM. KCMC6 at 11:30. KYTV 3 at 12:30. Ind. Head at 12:30 turned out to be KARD 3. A. Collins

\*\*\*\*\*

King Schafer in on the Sunday 6/2/57 Skip also. Ground wave same for King with pic of WTVN6 at 9:45 AM EDST. WBNS 10 9:55 AM... WLBT3 at 11:00 AM. WREG3 at 11:00 AM. WMCT5 Pic. at 11:15 AM. KCMC6 at 11:30 AM KYTV 3 12:30. KARD 3 at 12:30 All IDed. KV00 2 test bars and IH at 12:43. Pic taken of WMCT5 at 11:15. (KV002 seen through local WGR2.)

\*\*\*\*\*

Late reports in on Western-DX.....  
Jerry Don Burch of Hot Springs, Ark. really comes up with a lot of DX. Almost makes me want to move to Ark. Myself, to see that WBRZ-2, WLBT-3, KRLD-4, WFAA-8, KPRC-2, KTRE-9, KOTV-6, KWTV-9, KV00-2, KSD-5, KWTX-10, WKY-4, WBAP-5, WDSU-6, KCEN-6, KTBC-7, WJTV-12, KGUL-11, WLAC-5, (new) KRIS-6, WABT-13, with the best tropes as KRIS-6, at 546 miles. May 3, E Skip on WMAR-2, May 8, WGBH-2, WCBS-2, KDKA-2. May 15th. E. Skip KTVK-3, KMID-2, KPHO-5, and possible XEW-relay on 3. CKCK-2, KDX-2 New. May 16, E.S. CBLT-6 new, WGR-2. May 18, tentative skip of KYW-3, Skip of KDX-2, CKMU-2, KFYR-5, Wbay-2, WJBK-2, May 20-KUTV-2, & unID on 3 & 5., WTHB-2, WPTV-5, tentative, WESH-2, May 21, WCBS-2, WGR-2, CBFT-2, CJIO-2, WBAY-2, XEW-2, XEW-3 new.. WJBK-2, CBLT-6, CKVR-3, WMAR-2, May 22, CMAB-2, WUSN-2, WCBS-2, CMHQ-5, WRAL-5, WFMY-2, WMFD-6, WBTW-3, WRCV-3, WFIL-6, WGR-2, CBFT-2, WGBH-2, WCBS-2, WJBK-2, WMAR-2, WTAR-3, WABD-5, WUSN-2, WCSC-5, WFMY-2, WMAR-2. Best E skip is CMKU-2 at 1,1501 miles. That's a nice report.

Percy Cox of Visalia, Cal. also has a nice log. Six new ones this time to bring his log to 86. May 1, KV00-2, WKY-4, KGEO-5, KFDX-3, KARD-3, KMID-2 CKCK-2, May 2 & 3, KMID-2, KOOK-2, CKCK-2, May 8, KMID-2, KOMO-4, KREM-2, KFBC-5, CKCT-2, KYLY-4, May 17, KMID-2, WMT-2, KRLD-4, KFDX-3, KARD-3, KSL-5. May 18, KMID-2, May 22, KOMO-4, KFBB-5, CHOT-2, May 25 KMID-2, KARD-3, KRLD-4, KEDY-4. Nice going Percy.

Gordon Simkin of Loma Linda, Calif. Is in with a new one for this period. May 3, possible Oregon on ch 2 & ch 3, May 12 unID on ch 2 a possible Colo. or Tex. May 17, unID on ch 2 Possible Tex and Neb. on ch 3 May 22 UnID on 4, KLEW-3 at 880 mi. New. and UnID on ch 2.

Good luck to Gordon.....

Doris Johnson

Volume 4, Number 6

Equipment Tabulation Sheet No. 2

Gene Webb, Seattle, Wash. - 14" - Emerson Portable-1954-Winegard Superceptor model SL4D (recently installed, he was using rabbit ears)-Alliance rotor model DIR-3;55' mast-175 miles-5 locals.

John Parille, Girard, Ohio - 21" - Arvin-1954-Asiatic 4 tube booster-Alliance model DIR-3 rotor-built in UHF-50ft (mast)-75 miles-8 miles-7 VHF locals-2 UHF locals.

Albert Kopec, Himrod, N.Y. - 21" - Capehart-1955-Conical-25' (mast)-190 miles-5 VHF locals.

Raymond O'Rear, Zillah, Wash. - 19" - Philco-1955-10 element yagi-bowtie-Leader (Thompson Products) rotor-built-in UHF-50' (mast)-100 miles-20 miles-0 VHF & 3 UHF locals.

Jim Dillon, Regina, Sask. - 17" - Admiral-1955-Winegard Pixie Powerhouse LP5-24' (mast)-8 miles-1 VHF local.

Ed Prend, Dolton, Illinois- Receivers: Magnavox 1953, Philco 1953-Motorala 1957-Channel Master chs 2-6 (10 element)-Veedx chs 7-13 (10 element)-Channel Master 8 bowtie & screen (UHF)-BT model BTU-2 UHF converter-Veedx & alliance rotors.

William Ellmer, Medina, Ohio - 12" - Bogen (2) TV-B booster-2 bay antenna scope (2); Bogen (2); Sutco (1)-Homemade VHF antenna (30 elements)-Mallory converter-15' (inside)-250 miles-3 VHF locals.

Ronald Boyd, Truro, N.S. (Canada) - 17" - Philips-1955-Asiatic (2) CT-1 booster-5 element ch2 yagi-5 element ch3 yagi-10 element ch 5 yagi-50' (mast)-90 miles-2 VHF locals.

Dan Samuels, Mt. Vernon, N.Y. - 17" - 650 receiver (self constructed)- 2 bay high band folded dipoles (& reflectors)-folded dipole & reflector for low band-5 element ch3 yagi-8 element ch10 yagi-5 element ch6 yagi-ch43 yagi-another low band dipole & reflector facing middle west-120' (2 masts)-200 miles-8 VHF local-1 UHF.

Ron Vastola, Buffalo, N.Y. - 17" - Motorola-1949-Masco (2) TV-B booster-JFD 2 bay conical-JFD bowtie & reflector (corner)-Alliance U-98 rotor-astatic 3 tube UHF converter-37' (mast)-200 miles-87 miles-7 VHF-1 UHF locals.

Ed Hepp, Portland, Oregon - 17" - Motorala (Silvertone)-1955- 3 element ch2-5

Ed Hepp yagi (expects new Channel Master Traveling Wave antenna before this goes to print)-Amphenol rhombic (UHF)-alliance u98 rotor-built in UHF-40' (mast)-260 miles-3 VHF locals.

M. W. DeGeer, Tulsa, Okla. - 21" - Capehart-1953-Channel Master Champion, 2 bay- Veedx rotor-25' (mast)-250 miles-3 VHF locals (he does like Veedx rotor.)

Hal Glick, Yellowknife, NWT. - 21" - Admiral-1956-Regency & Bogen (2 tubes each) Rhombic & new Channel Master model 1126-alliance rotor-30' & 40'. No locals!

B. J. Bingham, Festus, Missouri - 21" - RCA-1955-Channel Master Champion (2 bay) alliance rotor-built in UHF-west (height 7)-200 miles-8 VHF locals.

Raymond Balley, Watertown, Mass. - 24" - Dumont-1955-Finco 400 SA screen reflector-alliance U-98 rotor-55' (mast)-130 miles-6 VHF locals.

Ghislain Girard, Arvida, Quebec - 21" - RCA-1956-Taco 1890 Super Trapper-20' (crank up mast)-120 miles (245 miles since April)-1 VHF local.

Milton Bay, Brooksville, Ky. - 17" - Philco 1951-Tec 3 tube booster-JFD 2 bay conical-Amphenol 2 bay corner reflector- CDR TR-2 rotor-Mallory UHF 3 tube converter-50' (mast)-75 miles-40 miles-7 VHF-2 UHF locals.

Kenneth Moses, Newton, N.C. - 21" - Magnavox-1952-JFD conical-25' (mast)-200 miles-4 VHF-1 UHF locals.

Don Roller, Ft. Wayne, Ind. - 21" - GE-1953-Winegard Superceptor-Channel Master 4 bay bowtie (with screen)-alliance T-10 rotor-built in UHF-30' (telescopic mast)-summer-278 miles-winter-200 miles-2 UHF locals.

Harry Webster, East Jordan, Mich. - 17" - Sylvania-Bendix-1953-Astatic (2) booster-Channel Master Champion-alliance tecno-rotor-50' (mast)-250 miles-2 VHF locals. (he is building a large 4 bay Rhombic antenna.)

Art Collins, Buffalo, N.Y. - 21" - RCA 1954-Philco 1956-Taco 1840B-2 bay bowties-alliance HTR rotor-built in UHF-85' (tower) (crank up)-250 miles-80 miles-7 VHF-1 UHF locals.

\*\*\*\*CONTINUED.....

## \*\*Equipment Compilation Sheet No. 3\*\*

Percy C. Cox, Visalia, Calif. -21" -Zenith-1955-Winegard 2 bay Colorceptors stacked at 66" -Taco 4 bowties with reflector-built in UHF-72' (tower) - (crank up type) -alliance U-98 rotor-250 miles-40 miles-2-VHF-4 UHF locals. Frank Hill, Gallipolis, Ohio-17" & 21" -Sentinel-1955-Sutco(1) booster-Zephyr Trio Royal antenna-50' (mast)-250 miles-3 VHF locals.

Kenneth Neal, Hamlin, Texas-20" -Zenith-1953-2bay Channel Master Champion- CDR TR-11 Series 6 rotor-46' (mast)-250 miles-2 VHF locals.

Karl Mehnert, Buffalo, N.Y. -21" -RCA-1953-Winegard Interceptor-alliance U-83 rotor-built in UHF-52' (tower)-220 miles-6. VHF-1 UHF locals. He has ordered a JFD corner reflector & Channel Master T.W.-7 (Traveling Wave) antennas.

John B. Clark, Rock Island, Ill. -21" -RCA-1955-Jerrold 5 tube Pre-Amp (booster)-Winegard Colorceptor CL-4X (2 bay)-Thompson Products Superotor, automatic-55' (mast)-240 miles-.

Eddie Albright, Medford, Oregon-21" -Hoffman-1957-All Channel Rivera(2 bay) antenna-40' (mast)-300 miles-1 VHF local.

Jerry Don Burch, Hot Springs, Ark. -21" -Zenith-1956-2 bay Trombone-TR-4 rotor-45' (mast)-261 miles-3 VHF locals.

Norm Erint, Kenmore, N.Y. -21" -Capehart-1955-Bogen BU-1-A 2 tube booster- Winegard colorceptor CL-4X(2 bay)-JFD twin corner reflector-alliance U-98 rotor-built in UHF-55' (mast)-275 miles-80 miles-6 VHF, 1 UHF locals.

Larry Vehorn, Speedway, Ind. -21" -RCA-1957-Finco 400-SA(VHF-UHF)-Radiart CDR TR-2 rotor-Turner TV-3 converter-56' (tower)-240 miles-53 miles-3 VHF.

Barry Rossum, Mohall, North Dakota--21" -Philco-1954-Channel Master TW-7 Traveling Wave-alliance rotor-50' (tower)-1 VHF local.

Edward Bourgeois, Norco, La. --17" -Crosley-1953-Winegard Colorceptor CL-4X- Walsco twin corner reflector-alliance U-98 rotor-BTU-2 converter-56' (mast) VHF (crank up)-200 miles-70 miles-2 VHF-2 UHF locals.

Don Voegele, Lancaster, N.Y. -GE 17"-1952; 12" Philco 1950; 24" Spartan 1954- 3 asiatic AT-1 4 tube boosters-Winegard 2 bay Superceptor-corner reflector- CDR TR-2 rotor-BTU-2 & Bogen UCT converters-70'-(tower)-150 miles- 6 VHF-1 UHF locals.

D. Quentin Glenn, Carlisle, Pa. --14" -GE-1956-alliance(2) booster-JFD Power Helix-Channel Master Bowtie-built in UHF-40' (mast)-150 miles-100 miles- 10 VHF-6 UHF locals.

Norris Doyle, Pittsburg, Calif. --21" -Packard-Bell-1953-Winegard Colorceptor CL-4X-Walsco 4450 corner reflector-VeeDx rotor-RCA U-40 converter-60' (mast)-140 miles-60 miles- 8 VHF-1 UHF locals.

David Janowiak, Milwaukee, Wisc. --21" -DuMont-1951-Winegard Colorceptor CL-4X(expects bowtie soon)-alliance u-98 rotor-Turner converter-30-35' (mast)-300 miles-9 VHF-1 UHF locals.

Oscar Carlson, Lancaster, N.Y. -21" -Westinghouse-1953-Sutco(1) booster- 2 bay Finco-Sutco converter-60' (mast)-80 miles-4 VHF, 1 UHF locals.

Bob Seybold, Dunkirk, N.Y. --3 receivers-Zenith 17"-1953; RCA 21" 1953; Stromberg Carlson 21" 1955; Masco Super Sky Chief 4 tube booster-Winegard Colorceptor CL-4X-Taco 1840B-Taco Trapper-Thompson Prod. Superotor-Channel Master rotor-Taco 3040 12 bow with screen UHF-corner reflector-all built in UHF-60' (tower & mast, both crank up)-250 miles-40 miles-7 VHF, 2 UHF.

Joe Huber, Shakopee, Minn. -17" -Stromberg Carlson-1951-40ft. mast-200 miles-6 VHF locals(within 80 miles )

Clarence Rareside, New Orleans, La. -21" -Zenith-1955-Finco B-8 broadband yagi(VHF)-Taco yagi(for UHF)-alliance u-98 rotor-ch20 strip-45ft-150 miles-2 VHF-1 UHF locals.

Bill Eckberg, Walnut, Ill. -21" -Coronado-1955-Channel Master broadband yagi-twin corner reflector-CDR AR-2 rotor-built in UHF(has on order, BTU-2 converter)-40ft. (tower)-203 miles-56 miles-3 VHF locals.

Bob Cooper, Fresno, Calif. -21" -Tech Master Gold Medal-1957-Benco 7 tube Super 40 broadband booster-Winegard 2 bay Superceptor-Walsco 12 bay bow tie-alliance U-98 rotor-BT 4 tube converter-90ft. (tower)(crank up)-340 miles-165 miles-1 VHF-3 UHF locals.

"Meteor Scatter Column" Conducted by Carl Lupton, Shelbyville, Ill.

Although E-skip seemed to be on the upswing for the past month, the decline of MS reception was not noticeable, as pertaining to the reports.

Doris Johnson, Longview, Wash. - Apr 23, KCOOK2, KDIX2; Apr 29, KTWO2; May 4, KUTV2. Doris reports that KUTV2 and KNXT2 was seen at least 2 times daily. A shorter report than usual, but the average distance was 800 miles. Better luck next month. Doris also reports that she has about 10 photos of MS loggings.

Bob Seybold, Dunkirk, N. Y. - Apr 25, WCBS2, KDAL3, KDL03; Apr 26, WRGP3, DKAL3, KDL03; Apr 27, WBZ4; Apr 28, WCYB5; Apr 29, WMAR2, WCBS2, WBBM2, WRAL5, WCSC5, WPTV5, WCYB5, KDAL3, KYTV3; Apr 30, WCBS2, KV002, WBBM2, KDAL3; May 1, KDAL3, WCSC5, WCYB5; May 2, WCBS2, WBBM2, WTWO2; May 3, WCBS2, WMAR2, WTWO2, WLWD2, WBBM2, WRAL5, WCSC5, WCYB5, WIS03, WCIA3, KDAL3, KARD3; May 4, WRC4A4; May 5, WPTV5, KDL03; May 6, WCBS2, WTWO2, WBBM2, KDAL3, WIS03, WCIA3, KARD3, KYTV3, KGL03; May 7, WCBS2, WLWD2, WBBM2, WCSC5, KRGV5, WTIV5, WCYB5, KDAL3, KMTV3, KYTV3, KARD3, May 8, WCBS2, WTWO2, WAGA45, WCSC5, KARD3, KDAL3, WIS03, KYTV3, KGL03; May 9, WCSC5, KDAL3, KDL03, KYTV3, KARD3, WIS06; May 10, WBBM2, KDAL3, WIS03, KYTV3, KTVI2; May 11, WRC4A4, KDL03, KTVI2, KMID2, CKCK2; May 13, WCBS2, WBBM2, KDAL3, WCIA3, WIS03, KARD3, KYTV3; May 14, KDAL3, KYTV3; May 15, WCBS2, WLWD2, WBBM2, KDAL3, KYTV3, WMOT5, KARD3; May 16, WMAR2, WCBS2, KYTV3, KARD3; May 18, WMAR2, WCBS2, WKRG5; May 19, WCBS2, WMAR2, KYTV3, KDAL3, WIS03, KARD3, KYTV3; May 20, WCBS2, WMAR2, KYTV3, KDAL3, WIS03, WBBM2, WCIA3; May 21, WCBS2, WMAR2, WBBM2, KDAL3, WIS03, KYTV3, WRGP3; May 22, WCBS2, KDAL3, WIS03; May 23, WCBS2, WMAR2, WTWO2, WBBM2. The times were predominantly early A.M. He said that the result of E-skip getting in there cut down on the size and number. Still a good report, Bob

Billy Draeb, Kewaunee, Wis. - Apr 24, WAGA5; Apr 26, WKY4; Apr 29, WMAR2, many times; May 1, WMAR2, WCBS2, WKY4; May 5, WCBS2, KV002, many bursts; May 11, WCBS2; May 15, KYW3; May 16, WMAR2, WCBS2. Billy reports 4 new stations this month, and WKY4 at 825 miles the best distance. Nice report, Billy.

Jerry Don Burch, Hot Springs, Ark. - Apr 25, WBAY2, KYW3, WRGP3, WGR2, WMT2, WFMY2; Apr 26, WBAY2, WGR2, WMAR2; Apr 27, WBBM2, WGR2, WJBK2; Apr 28, WBBM2, WBAY2, WGR2, WMAR2, WJBK2; Apr 29, WBBM2, WBAY2, KYW3, WGR2, WMAR2, WJBK2; Apr 30, WBAY2, KYW3, WGR2, WMAR2, WJBK2; May 1, KYW3, WGR2, WMAR2, WJBK2, SFMY2; May 2, WBBM2, KYW3, WGR2, WMAR2, WJBK2; May 3, WBBM2, WBAY2, KYW3, WGR2, WMAR2, WJBK2, WMT2, WGRV3, WFIL6, WLWD2, WLW04, WUSN2; May 4, WBBM2, WBAY2, KYW3, WGR2, WRCV3, WFIL6, WTAR3; May 5, WBBM2, KYW3, WGR2, WCBS2, WLWT5, WTMJ4; May 6, WBAY2, WGR2, WJBK2, WUSN2; May 7, KYW3, WGR2, WMAR2, WJBK2, WFMY2, KDKA2; May 8, WBAY2, KYW3, WGR2, WMAR2, WFMY2; May 9, WBAY2, KYW3, WGR2, WMAR2, WJBK2, WFMY2; May 10, WGR2, WMAR2, WJBK2, WFIL6, WCBS2, KMID2; May 11, WBBM2, WBAY2, KYW3, WMAR2, WJBK2, WFIL6, WLWD2, WTAR3, WCBS2; May 12, WBBM2, KYW3, WGR2, WJBK2; May 13, WBAY2, WGR2, WUSN2; May 14, WBAY2, KYW3, WGR2, WMAR2, WJBK2, WFIL6; May 15, WBAY2, KYW3, WMAR2, SJBK2; May 16, WBAY2, WGR2, WMAR2, WJBK2, WFIL6; May 17, WBAY2, KYW3, WMAR2; May 18, WBBM2, WMAR2, WJBK2; May 19, WGR2, WBAY2; May 20, WGR2, WMAR2, WJBK2; May 21, WMAR2, WGR2, WLWD2, WJBK2; May 22, WBAY2; May 23, (THUNDERSTORMS); May 24, WGR2, WJBK2. Jerry reports 4 new stations, WTMJ4, WLW04, KYW3, and WRGP3. The summary: 20 stations seen for a total of 142 times. Excellent viewing!

This month I have a new report from Ronald A. Boyd, of Truro, N. S. Apr. 12, WMAR2; Apr 16, WCBS2, WMAR2; Apr 17, WCBS2; Apr 18, WCBS2; Apr 19, WCBS2, WMAR2; Apr 30, WCBS2; May 1, WCBS2, May 2, KYW3, WCBS2, WMAR2; May 3, WMAR2, WCBS2, KYW3, WGR2; May 4, WCBS2; May 6, WJBK2,

... "Meteor Scatter. Colwene, Goebel and no transmitter..... news, Japan  
WCBS2, WMAR2, WGR2; May 7, WGR2, WCBS2; May 8, WCBS2; May 9, WCBS2,  
May 10, KYW3, WCBS2; May 11, WCBS2; May 13, KYW3; May 15, WCBS2, WMAR2,  
WJBK2; May 17, WMAR2, WCBS2; May 22, WCBS2, WRC4. Best distance was  
WJBK2, at 975 miles. A good report, Ronald, keep up the good work.

King Schafer, Kenmore, N. Y. - May 3, WREC3, WRGP3; May 4, WBBM2;  
May 5, WCBS2; May 6, KVOO2; May 7, WBAY2; May 9, WRAL5, WGSC5, WAG45;  
May 10, KOTV6, KFEQ2, KPRC2; May 13, WCI43, KARD3; May 16, KSL5. A  
nice report, King, but was the rest of the month all E-skip, hi?

Another new reporter for this month is Ed. Bourgeois, Norco, La.  
Apr. 27, WFBM6 (new); May 1, WGR2, WBBM2, WBAY2, WJIM6 (new), WMT2;  
May 3, WMAR2, WBBM2, WMT2, KGNO4; May 5, WBAY2; May 11, KFEQ2, WABD5,  
WEWS5, WFIL6 (new); May 15, WBAY2, WBBM2, WMAR2, WFIL6; May 16, WBAY2,  
WMT2, WTAR3, WFIL6; May 17, WBAY2, WTAR3; May 18, WJBK2, WBAY2, WMAR2,  
WMT2, KFEQ2, WSYR3; May 19, WJBK2, WBAY2; May 20, WMT2, WJBK2, WFIL6;  
May 21, WBAY2. A good report, Ed, hope you improve every month.

Barney Rauch, Peoria, Ill. - Mar. 5, WNCT9; Feb 26, WMAR2; Apr 8,  
KTVR2. Barn ey's report doesn't look very big, but he does have verifi-  
cation for all. May they get thicker and better, Barney.

Though it may be hard to believe, ye old Editor deserted MS for a  
good portion of the month to look at some E-skip, which finally reared  
its beautiful head in the latter part of the month. MS wise, the old  
favorites came through, namely WGR2, WCBS2, WBZ4, WMAR2, and a new one,  
WFIL6. The period from May 2nd to 6th seemed to be the best times,  
possible do to a shower known as the Aquarids. --- Also at this time,  
I wish to thank all who voted me into the Board of the club. Will do  
my utmost to fulfill all expectations.

So, if E-skip slows down for a bit, just look around for some MS  
and let me know about it. -- C. F. Lupton

Late MS report from Art Collins.... 4/28/ UHF showing up WFMJ 21,  
WKBN 27, WKAR 49, WANE 15, 5/1/ WKJG 33, 1:30 AM EDST.  
5/2/57 KARK 4 1:35 1:50 AM several bursts. 5/3 KMTV 3.... 5/4 Short Skip  
from the N.E. CBHT 3 CKCW 2 11:00 to 11:45 AM EDST. 5/5/57 WRCA 4,  
WCBS 2 WJBF 6, all early hrs... 5/7/57 WRBL 4, with CBS test pattern at  
2:35 to 3:00 AM. 5/9/7 WMT 2, 2:20 AM 5/16/7 WMAR 2, WCBS 2, WBBM 2,  
WTW 2 took Photo on Burst. 5/18/7 WSM4, KARK4, 2:20 AM WRCV3 on G.W.  
7:05 to 7:30 AM. also WRAL5, KSD5, M.S. 5/18/7 Skip in at 10:15 AM to

5/21/7 Skip again - KARD3, KCM05, KSYD6, KDR06, KMTV3, KOTV6, KFDX3,.....  
5/28/7 MS WHBF4, WSM4, after 1:30 AM.  
6/1/7 from 6:30 AM on for over one hr. steady ground wave from WCBS2,  
WRCV3, WCAU10, WFIL6.

A suggestion has came in from Ronald Boyd off Box 4, 15 Richardson St.  
Truro, Nova Scotia on MS ID, he suggest that all low band stations be log-  
ged and identified by local members and summarized into one report, by  
the different types of TPs, whether call letters are used and times on  
the air. What do you think of the idea?? It's possibly a lot of work to  
compile but Carl may do it. Drop a line to C. Lupton RR 3 Shelbyville, Ill.

What do you think of the idea of conducting a page (in the fall and  
Winter months when the Bulletin is small) to how each and every one got  
started in TV DXing. What was their first station seen out-side their  
local, how did you strike upon the DX of TV? This could make interesting  
reading and I'll wager it could be funny. King Schafer came up with this  
idea.

An address change just in on Barry Rossum from Northfield, Minn to  
Mohall, N.Dak. Arthur Cordts from Norfolk, Va to Glendale, Brooklyn 27, N.Y.  
and Frank Hill is back in Gallipolis, Ohio. Box 147.

C.L.
